WORK EXPERIENCE

CXtec

Mar 2024 – April 2025

Software Engineer II

Remote

- Delivered end-to-end features in collaboration with product and design teams across the full SDLC
- Built scalable, maintainable front-end interfaces using Angular, React and modern design systems
- Contributed to backend services using .NET, enhancing API performance and reliability
- Championed adoption of newer tech to streamline development and improve user experience

Meyer Distributing

Jan 2019 – Mar 2024

Front End Developer

Jasper, IN

- Led development of internal and customer-facing applications for web and mobile
- Collaborated with cross-functional teams to deliver features across inventory, sales, and logistics tools
- Mentored junior developers and standardized onboarding through technical documentation
- Improved app reliability and developer productivity by implementing reusable components and tests

PROJECTS

OrderFlow Rebuild (CXtec)

- Redesigned and reengineered the company's aging JSP-based ordering system into a modern, scalable application.
- Spearheaded full-stack development using Angular, React, .NET, and SQL Server
- Improved performance, reduced tech debt, and enabled modular feature development
- Enhanced UI/UX to streamline workflows for sales and support teams

Meyer Online (Meyer Distributing)

- Built a cross-platform web and mobile app to serve as the company's internal wholesale ordering system.
- Developed a responsive, dealer-facing interface with Angular, Ionic, and .NET
- Supported inventory browsing, order placement, and shipment tracking
- Contributed to a platform used by thousands of clients across multiple verticals

Driver Portal (Meyer Distributing)

- Created a native mobile app to assist delivery drivers with route management and order fulfillment.
- Built with React Native to support both Android and iOS platforms
- Enabled drivers to view assigned routes, check off deliveries, and report issues in real time
- Streamlined delivery operations and reduced manual tracking dependencies

EDUCATION

Indiana University

B.S. Media Arts and Science

May 2017

Indianapolis, IN
